

Data (15%)	Realistic and Practical (5%)	impractical	2	OK	5					
	Explanation (How you find/generate the data; meaning of each table and attribute) (10%)	no details for each table and unclear for realism	2	a short description for source but no details for each table	5	clear source for each table but unclear for practicality	7	very clear for each table	10	
Queries (50%)	Sophistication (join, aggregation, GROUP BY, HAVING, nested) (20%)	missing many	5	missing two or two structures are unnecessary	10	missing one or one structure is unnecessary	15	all met and the structure makes sense	20	Note: You will lose marks if a HAVING clause does not refine your results (dropping it will yield the same output)
	Correctness (10%)	more than 2 incorrect	1	2 incorrect	4	1 incorrect	7	correct	10	
	Practical/Meaningful (10%)	more than 2 queries meaningless	1	2 meaningless queries	4	1 meaningless query	7	all with business insights	10	
	Interfaces (10%)	missing many	1	missing some parts for 2 queries	4	missing some parts for 1 query	7	sufficient for all queries	10	
PHP (20%)	Correctness (10%)	many incorrect	1	some incorrect	4	a few incorrect	7	correct with comments	10	
	Meaningfulness of inserting/modifying/deleting data (5%)	meaningless	2	meaningful	5					
	Interfaces (inserting/modifying/deleting data) (5%)	none	0	insufficient	2	sufficient	5			
Report (15%)	Organization (5%)	not organized	2	Well-organized	5					
	Content (5%)	weak	2	sufficient info	5					
	Clarity/Readness (5%)	unclear	2	Clear&Sufficient	5
